(*iii*) that it has been partially manufactured in such country and that the final process of manufacture has been performed in such country, and that the expenditure on material produced and labour performed in such country in the manufacture of the article is not less in the case of an article specified in the Second Schedule than one-half and in the case of other articles than one-quarter of the factory or works cost of the article in its finished state:

Provided that where the goods are consigned from a British Colony the material produced and labour performed in any other British Colony may be reckoned as though it were material produced or labour performed in the colony from which the goods were consigned.

Explanation.—For the purposes of sub-clause (*iii*) of clause 2 (*b*) the final process of manufacture shall not be deemed to have been performed in any country in which no process other than a process of mixing, bottling, labelling, packing into retail containers or the like has been performed, but where such process as aforesaid has been performed in the country in which the final process of manufacture has also been performed nothing herein shall render the cost of such process ineligible for inclusion in the computation of the fraction of the factory or works cost of the article in its finished state which represents expenditure on material produced and labour performed in that country.

5. Articles of a description specified in the first column of the Third Schedule which have been consigned from the United Kingdom but are in other respects eligible under rule 4 to be deemed to be the produce or manufacture of a country specified in the corresponding entry in the second column thereof shall be deemed to be the produce or manufacture of that country notwithstanding the fact that they were not consigned therefrom.

6. *Customs House procedure for goods entered for home consumption.*—If the owner of any goods entered for home consumption claims that they are chargeable with a preferential rate of duty, but is unable at the time of entry to satisfy the Customs Collector that the goods fulfil the conditions laid down in rule 4 or rule 4 read with rule 5, as the case may be, the Customs Collector—

(*i*) shall levy and collect the duty at the standard rate, and, if at any time within a period of three months from the date of payment of duty at the standard rate he receives an application in this behalf from the owner of the goods and is duly satisfied that the goods are entitled to entry at the preferential rate, shall make a refund to the owner of the extra duty levied; or

(*ii*) may, in his discretion, levy and collect the duty provisionally at the preferential rate, subject to the execution by the owner of the goods of a bond in one of the Forms prescribed in the Fourth Schedule binding himself to pay the balance of the duty.

7. (1) No claim that goods are chargeable with a preferential rate of duty shall be considered by the Customs Collector in respect of goods imported by post unless—

(*a*) at the time of arrival in British India such goods are covered by a declaration as to the country of origin entered in the customs declaration form or (in the absence of such a form) on the wrapper of the package, or

(*b*) such claim is made by the owner at any time before delivery of the goods is taken.

(2) If the owner of the goods is unable to satisfy the Customs Collector that the goods fulfil the conditions laid down in rule 4 or rule 4 read with rule 5, the Customs Collector shall proceed in the manner prescribed in rule 6.

8. *Customs House procedure for goods entered for warehousing.*—(1) If the owner of any goods entered for warehousing claims that they are chargeable with a preferential rate of duty, but is unable at the time of entry to satisfy the Customs Collector that the goods fulfil the conditions laid down in rule 4 or rule 4 read with rule 5, as the case may be, the Customs Collector shall assess duty at the standard rate.

(2) If the Customs Collector is satisfied before the goods are removed from the warehouse that they are chargeable with a preferential rate of duty, he shall re-assess them accordingly at the time of such removal.

(3) If the goods are removed from the warehouse without the Customs Collector being so satisfied, they may be dealt with in the manner prescribed in rule 6.

9. *Power to levy unpaid balances as duty short-levied.*—Where any payment of duty due under a bond has not been made in accordance therewith, and upon demand being made, the Customs Collector may, in his discretion and without prejudice to his power to enforce the bond, recover the amount due at any time as if it were duty short-levied within the meaning of section 39 of the Sea Customs Act, 1878 (VIII of 1878).

20. *Bonus.*—A bonus of one month's pay will be credited to each apprentice on completion of each year of satisfactory service, and placed on his behalf in an account in the Post Office Savings Bank or the Imperial Bank of India. The money so accruing to the credit of the apprentice will only be paid to him if he completes the full apprenticeship to the satisfaction of the Superintendent or other officer in charge of the factory, and then only after any charges outstanding against him have been liquidated therefrom. The bonus of an apprentice, if withheld, will be credited to Government.

21. Apprentices must abide by any local rules framed by the executive officers of the respective factories.

22. Employment is guaranteed for half the number of apprentices appointed each year on completion of their courses, as Temporary Supervisors. Everything possible will be done to find employment for the remaining half, though no guarantee can be given for them.

Conditions.

1. The Divisional Forest Officer does not bind himself to accept the highest or any offer for any lot or to give any reason for such non-acceptance.

2. The sale of any lot, the value of which exceeds Rs. 5,000, shall not be complete until confirmed by the Conservator of Forests, Bengal.

3. The purchaser whose offer is accepted by the officer holding the sale must deposit earnest money of 10 per cent. of his offer for each lot and in the event of the sale being confirmed the earnest money will be retained against the security deposit. If two or more lots be taken by the same purchaser, the Divisional Forest Officer may relax this condition in such individual case and to such an extent as he deems fit, subject to the proviso that in any case the minimum earnest money payable is Rs. 300 or 10 per cent. whichever is less. In the event of the sale not being confirmed, the earnest money will be returned.

4. Security deposit of 10 per cent. of the purchase price will be demanded within 10 days of the sale if paid in cash. If paid in any other form permissible under Government rules the deposit must be 10 per cent. of the purchase-price. In the event of the security deposit being less than Rs. 300, the difference between the security and earnest money will be credited towards the first instalment.

5. Failure to complete the payment of security deposit by the prescribed date will render the purchaser liable to the forfeiture of his earnest money and failure to execute the agreement within one month of receiving the same will render the purchaser liable to the forfeiture of the security deposit.

6. The lot or lots so affected shall be resold by public auction at the discretion of the Divisional Forest Officer, and the purchaser shall be liable for any loss to Government on such resale.

7. Purchasers will be required to execute agreements in the printed form for outright sales (copies of which may be seen in the Divisional Forest Offices, Jalpaiguri, Buxa, Kurseong, Kalimpong and Darjeeling).

8. The following are among the conditions of the agreements for "Dry Coupes":—

4th instalment	1st August 1940.
5th instalment	1st November 1940.

9. The following are among the conditions of the agreements for " Thinning Coupes " and " Cyclone damaged Coupes" :—

3rd instalment	1st April 1940.
4th instalment	1st August 1940.
5th instalment	1st November 1940.

10. The following are among the conditions for " Clear Felling Coupes " :—

(*a*) Felling and extraction to be completed by 31st March 1940 and on no grounds can an extension be given after that date.

(*b*) The purchase price to be paid in three approximately equal instalments on or before—

1st instalment	1st October 1939.
2nd instalment	1st January 1940.

11. All marked trees must be felled and all green sal trees must be barked.

12. All tops of trees must ordinarily be removed from Clear Felling Coupes by the 31st March 1940. A purchaser may, however, notify the Range Officer concerned on or before the 31st October 1939 that he does not wish to remove the tops. The Range Officer will then arrange local sale at cart load or stacked firewood rates and credit the proceeds to Government.

13. No timber shall be sawn in the forest unless salemarked before sawing, except in Clear Felling Coupes.

14. Advance sale mark may be given up to 80 per cent. of the value of passed sleepers and logs in cases where delay in final payment is anticipated.

15. No timber may be removed from any coupe unless paid for in full and duly salemarked.

16. Claims for shortage of trees or any discrepancy in species or measurements will be considered up to two months from the date of confirmation of sale.

17. Under no circumstances will the security deposit be credited towards the last instalment.

18. The security will be released only after completion of stump checking and after all dues are fully settled.

19. Purchasers of the lots shown in the annexed Schedule must supply the Forest Department the number or quantity of passed logs or sleepers or both, as the case may be, at the current prices and within the prescribed dates as detailed in the Schedule. These logs and sleepers will be the first charge on the outturn of the respective lots. (*2*) Prosecutions under this Act may be instituted by any person duly authorised in writing by the Committee in this behalf.

(*3*) The Provincial Government shall make and pay to the Committee a grant equivalent to the amount of the fines realised during each financial year in respect of offences committed within the jurisdiction of the Committee.

Members, etc., of the Committee to be public servants.

28. Every member and every officer and servant of the Committee shall be deemed to be a public servant within the meaning of section 21 of the Indian Penal Code. Act XLV of 1860.

STATEMENT OF OBJECTS AND REASONS.

1. In Bengal, generally speaking, marketing of the products of agriculture is liable and subject to the following, among other, disadvantages, defects, malpractices and irregularities:—

(*i*) "Tricks of the trade", such as adulteration and mixing of produce, are practised;

(*ii*) Market charges and allowances levied by owners and dealers are multiform and often excessive;

(*iii*) Scales, weights and measures are dissimilar, and thereby afford scope and opportunity for cheating and sharp practice;

(*iv*) Existing markets are deficient in communication, accommodation, shelter and sanitation;

(*v*) Reliable information as to prices, etc., is sometimes not easy to obtain;

(*vi*) Unjustified and illegal discounts and deductions are current;

(*vii*) Hangers-on of the market, casual irresponsible interlopers and rakers-off, servants of the owners of the market, functionaries, dealers, beggars, touts and market employees levy toll of various kinds, defined and undefined, to the victimization of the cultivator;

(*viii*) The system of commission selling is defective, as for example, allowing commission agents to operate both for the buyer and the seller;

(*ix*) Brokers are apt to favour the buyer at the expense of the grower;

(*x*) Malpractices are common, e.g., wrong weighment, undue deductions in weight, stoppage of delivery for complaint or bargaining when half a cart is unloaded;

(*xi*) Produce is subject to no standard and the dealer has to chance the quality of the produce he buys and the possibility of adulteration. Prices, therefore, rule low and the result is that the producer, who is the cultivator, often does not receive a reasonable value, while the consumer pays a high price for an inferior article.

2. The Royal Commission on Agriculture (Chapter XI, page 387) estimated the margins of middlemen in jute as follows:—

"The margins of the various middlemen are estimated as from two to six annas per maund of jute for the faria according to the season, four annas to one rupee for the bepari and four annas for the aratdar. The margin of the baling firms from which they have to meet the cost of handling and storing as well as that of freight to Calcutta and Insurance is placed at Re. 1-6-0. The difference between the price received by the cultivator and the price paid by the jute mill or the exporter is thus estimated at from Rs. 2 to Rs. 2-8-0 per maund, which represents twenty per cent. of the total price".

3. The result is that commodity values are lost in service costs. Agricultural produce costs more to distribute than to produce. The middlemen absorb too much of the profits, so that the farmer, being preoccupied with the middlemen, has little thought for the consumer or for the quality of his goods.

4. The Royal Commission on Agriculture (Report, page 395) examined the question whether regulated markets should be established under *ad hoc* legislation or under bye-laws framed under the Municipalities Act or the District Boards Act, and came to the conclusion that special legislation was advisable giving weighty reasons in support of their conclusion. In brief, bye-laws of local bodies have not up to now been adequately enforced.

5. This Bill therefore makes provision in Bengal (outside Calcutta) for regulated markets for agricultural produce.

6. The main objects of the Bill are—

(*a*) to register all markets, fairs and hats;

(*b*) to regulate the scale of market charges with a view to uniformity and reduction;

(*c*) to control trade practices;

(*d*) to ensure uniformity of scales, weights and measures;

(*e*) to improve the conditions of markets by providing better shelter, water and sanitary arrangements for men, beasts and produce;

(*f*) to keep the cultivator well posted in regard to prices;

(*g*) generally to ensure that the cultivator-producer receives a fair deal, a fair price and the whole of the market price *minus* reasonable market charges;

(*h*) to protect the purchaser and the public (the cultivator is not himself guiltless of malpractices);

(*i*) to encourage the cultivator to improve the quality of his produce and thus remove the existing suspicion attaching to Indian raw material in foreign markets; and

(*j*) to eliminate malpractices, such as wrong weighments, undue deductions in weight, price reduction by going back on the original terms of the bargain, etc.

7. The means by which it is proposed to achieve the above objects is the setting up of Market Committees (mainly elected and representing all interests) for particular markets to regulate and control the marketing of agricultural produce by a system of licenses of operators in the market.

8. The provisions of the Bill should enable and secure, in course of time, the establishment of regulated markets for agricultural produce throughout the province.

NOTIFICATIONS.

No. 28-I.—6th July 1939.—In exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor is pleased to make the following rules and fix the following rates of tolls for the line of navigation known as the Surjamani khal in the district of Bakarganj and as defined in the notification No. 10-I., dated the 6th April 1939:—

Rules and rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the district board of Bakarganj on this behalf.

2. Vessels for the purpose of determination of maundage shall be divided into two classes as below:—

Class I—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, and other similar types of boats.

Class II—To include steam boats, motor boats, flats, and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of the Canals Act and of these rules, be determined by the following measurements:—

Class I.

A. The product of one quarter of the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. *Saltees.*—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls thall be levied.

Class II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills the gross maundage of cargo shown by the way bills, or in the case of steamers the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which shall be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the serang, manjhee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket shall be kept on board the vessel and in possession of the person in charge of the vessel and shall be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of the Crown, of the district board or other local bodies, or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the district board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length or 5 feet in breadth shall be permitted to enter the canal.

12. The rates of toll shall be as follows:—

(1) On all vessels, empty or laden, per hundred maunds—Eight annas.

(2) On all vessels, empty or laden, for 12½ maunds or less- One anna.

(3) On rafts of bamboos, grass, timber or other similar articles not exceeding 50 feet in length and 5 feet in breadth—Four annas each raft.

Tolls shall be levied at Dwipasa and Bauphal.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at ten times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month, *i.e.*, provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers or officers of the Army in India, post mail runners, officers of the Department of Communications and Works (Irrigation) on duty, or officers or servants of the toll office for the canal referred to in these rules while on duty, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the district board of Bakarganj at a meeting and such decision shall be subject to the approval of the Provincial Government.

No. 23-I.—16th June 1939.—The following draft amendment which, in exercise of the powers conferred by section 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor proposes to make in the rules, published under notification No. 253, dated the 9th December 1902, for the line of navigation (approximately 4,870 feet in length), commonly known as the Halifax Cut, connecting the river Madhumati with the river Nabaganga in the Narail subdivision of the district of Jessore and passing through the villages of Telkora and Bordia in the said subdivision, is published for the information of persons likely to be affected thereby.

Provided that, in order to allow the use of alternative methods of treatment of surfaces, or in order to allow an extension of the period between successive treatments where, in his opinion, surfaces are in good preservation and in a clean and sanitary condition, the Inspector may, in any particular instance, by order in writing relax the provisions *of this rule* to such extent and subject to such conditions as he may think fit.

4. *A register in Form No. 1 shall be maintained showing the dates on which the different parts of the factory have been lime-washed, colour-washed, painted, varnished or otherwise treated:*

Provided that nothing in this rule shall apply to any factory wholly exempted from the provisions of rule 3 under the proviso thereto.

(*ii*) Where males are employed there shall be one *latrine* for every 25 males; provided that where the number of males employed exceeds 100 it shall be sufficient if there is one latrine for every 25 males up to the first 100, and one for every 50 thereafter.

In calculating the number of *latrines* required under this sub-rule, any odd number of workers less than 25 or 50, as the case may be, shall be reckoned as 25 or 50.

(2) *The number of workers in a factory for whom septic tank latrines shall be deemed to provide accommodation shall be (a) the maximum number of daily users as approved by the Director of Public Health, under clause (1) of rule 8, or, (b) the number of workers provided for on the scale specified in sub-rule (1), whichever is less; and where the number so calculated is less than the total number of workers employed, the accommodation provided in the way of septic tank latrines shall not be deemed to be sufficient within the meaning of section 20.*

All latrines intended for females shall be so placed or so screened that the interior shall not be visible even when the door is open, from any place where persons of the other sex have to work or pass, and, if the latrines for one sex adjoin those for the other sex, the approaches shall be separate *and there shall be no common entrance.*

(6) *Where the number of workers employed exceeds 500, hand-service latrines of the drybucket type shall not be permitted except with the previous permission of the Provincial Government.*

8. *The following provisions shall apply to septic tank latrines:—*

23. *Every fixed vessel, sump, pit, or opening in a floor which by reason of its depth, situation, construction or contents, causes risk of bodily injury, shall either be securely covered or be securely fenced.*

24. (1) *Every moving part of machinery shall be securely fenced or otherwise safeguarded, unless it is in such a position or of such construction as to be as safe to every person employed or working on the premises, as it would be if securely fenced.*

(2) *Every fence or other safeguard* shall be strong and rigid and shall be constructed to the approval of the Inspector.

(3) *Every fence* shall be so placed that it is impossible for any person to pass between it and the moving part and shall also prevent contact of any person or his clothing with the moving machinery:

Provided that where a dangerous part of machinery is fitted with a safety device which effectively provides against injury to workers, such

part of machinery shall, if the device is properly constructed and is maintained in efficient working order, be deemed to be securely fenced.

25. If in any case it is represented to the Inspector and agreed to by him in writing that fencing would unduly obstruct or interfere with a manufacturing process, or would otherwise be impracticable, such other protection or other measure as the Inspector may direct, shall be provided instead of fencing.

26. Suitable striking gear or other efficient mechanical appliances shall be provided *and maintained* and used to move driving belts *to and from* fast and loose pulleys, and any such gear or appliances shall be so constructed, *placed and maintained as to prevent the driving belt from creeping back on to the fast pulley*:

Provided that where the Chief Inspector is satisfied that such striking gear or appliances are not necessary or are impracticable for any class of machines, he may by order in writing exempt such class of machines from this requirement.

27. In every factory all electrical equipment shall be sufficient in size and power for the work it is called upon to do and *shall be* constructed, *situated*, protected, *operated*, and maintained *in such a manner as to cause no risk of bodily injury*:

Provided that where automatic mechanism is installed which renders "dead" any electrical equipment on the occurrence of danger, such mechanism shall be taken into account by the Inspector when considering the adequacy or otherwise of the protection furnished:

Provided also that in no case shall the Inspector accept as adequate any conditions or combination of conditions which are subject to objection under any other Act.

28. *Where the Inspector so requires there shall be provided in any room or place in a factory where work is carried on with the aid of power, an efficient device or appliance by which the power can be promptly cut off from the machinery in the room or place.*

29. (1) Removing, replacing or *otherwise attending* to driving belts shall be done only *by workers trained in that work.*

(2) *No driving belt when not in use shall be allowed to rest or ride upon a revolving shaft.*

(3) *Every person who goes—*

(*a*) *to remove, replace or otherwise attend to a driving belt, or*

(*b*) *to oil, attend to, or work in proximity to exposed parts of moving machinery, or*

(*c*) *to attend to moving parts of machinery for the purpose of repair, examination, cleaning, lubricating or altering the gearing or arrangements, or*

(*d*) *to work at a height near moving machinery,*

shall wear tight trousers and shall not wear any loose clothing. A dhoti wrapped around the body in any manner shall be deemed to be loose clothing within the meaning of this rule.

(4) *Every* ladder used in removing, replacing or *otherwise attending to* driving belts, and in the oiling and attending to overhead shafting, shall be provided with hooks or an effective non-skid device.

30. When any plant, machinery, apparatus, or fittings in a factory do not comply with the provisions of rules 23, 24, 25, 26, 27 and 28, such plant, machinery, apparatus or fittings shall be deemed not to be adequately fenced within the meaning of sub-section (*1*) of section 24 of the Act.

32. *There shall be* exhibited, in English and in the language of the majority of the workers a notice prohibiting smoking *and* the use of naked lights, in any places where they would be dangerous, or where the Inspector may require, and all other reasonable precautions against fire shall be taken.

Chapter V.

Hazardous Operations.

33. (1) **Lead and lead compounds.**—The provisions of this rule shall apply only to those factories in which any of the following operations are carried out, viz.:—

(*i*) Work at a furnace where the reduction or treatment of zinc or lead ores is carried on.

(*ii*) The manipulation, treatment, or reduction of ashes containing lead, the desilverising of lead or the refining of dross containing lead.

(*iii*) The manufacture *and use* of alloys containing more than ten per cent. of load.

(*iv*) The manufacture of any oxide, carbonate, sulphate, chromate, acetate, nitrate, or silicate of lead.

(*v*) Handling or mixing of lead tetra ethyl.

(*vi*) Mixing or pasting in connection with the manufacture or repair of electric accumulators.

(*vii*) The cleaning of work-rooms where any of the processes aforesaid are carried on.

(*viii*) Every other manufacturing operation involving the use of any lead compound or the cleaning of work-rooms where any such operation is carried on.

(2) The operations specified in sub-rule (1) are declared to be hazardous.

(3) (*i*) In this rule "lead compound" means any compound of lead, other than galena, or any mixture which contains a compound of lead, other than galena (but does not include an alloy containing lead):

Provided that the compound or mixture when subjected to the treatment specified in clause (*iii*) yields to an aqueous solution of hydrochloric acid a quantity of soluble lead compound exceeding, when calculated as lead monoxide, five per cent. of the dry weight of the portion taken for analysis.

(*ii*) In the case of paints and similar products and other mixtures containing oil or fat the "dry weight" means the dry weight of the material remaining after the substance has been thoroughly mixed and treated with suitable solvents to remove oil, fats, varnish or other media, and the treatment referred to in clause (*i*) shall be applied to the material so remaining.

(*iii*) The treatment referred to in clause (*i*) shall be as follows:—

A weighed quantity of the material which has been dried at 100°C and thoroughly mixed shall be continuously shaken for one hour, at the common temperature, with 1,000 times its weight of an aqueous solution of hydrochloric acid containing 0·25 per cent. by weight of hydrogen chloride. This solution shall thereafter be allowed to stand for one hour and then filtered. The lead salt contained in the clear filtrate shall then be precipitated as lead sulphide and weighed as lead sulphate

(4) When an Inspector suspects that any substance used or intended for use in any factory contains a lead compound he may at any time take for analysis sufficient samples of that substance:

Provided that the manager of the factory may, at the time when a sample is taken and on providing the necessary appliances, require the Inspector to divide the sample into two parts and to make and seal and deliver to him one such part.

(5) No woman, adolescent or child shall be employed in any of the operations specified in clauses (*i*) to (*vii*) inclusive of sub-rule (1).

(6) (*i*) No person shall be employed in any of the operations specified in sub-rule (1) unless a special certificate of fitness in the Form No. 3 is granted to him by a certifying surgeon and is in the custody of the manager of the factory.

(*ii*) Every person so employed shall be medically examined by a certifying surgeon at intervals of not more than six months, and a record of such examinations shall be entered in the special certificate of fitness granted to him under clause (*i*).

(*iii*) The Chief Inspector may require that any person granted a certificate under clause (*i*) shall carry with him while at work a token giving reference to such certificate.

(*iv*) If at any time the certifying surgeon is of opinion that any person is no longer fit for employment in any of the operations specified in sub-rule (1) he shall cancel the special certificate of fitness of that person.

(*v*) No person whose special certificate of fitness has been cancelled shall be employed in any of the operations specified in sub-rule (1) unless the certifying surgeon again certifies him to be fit.

(7) Where gas, dust or fume is produced in any of the operations specified in sub-rule (1), provision shall be made for removing the gas, dust or fume by means of an efficient exhaust draught so contrived as to operate on the gas, dust or fume as closely as possible to the point of origin:

Provided that where the provision of an efficient exhaust draught is not reasonably practicable the Inspector may require:—

(*a*) respirators of a type approved by him to be provided and maintained in a clean and efficient condition by the occupier and worn by every person working under such conditions;

(*b*) the damping of floors, apparatus and material to prevent the raising of dust.

Explanation.—"Efficient exhaust draught" means localised ventilation effected by heat or mechanical means, for the removal of gas, vapour, dust or fumes so as to prevent them (as far as practicable under the atmospheric conditions usually prevailing) from escaping into the air of any place in which work is carried on No draught shall be deemed efficient which fails to remove smoke generated at the point where such gas, vapour, fumes or dust originate.

(8) (*i*) The floor of every room, in which any person is employed on any of the operations specified in clauses (*i*) to (*vi*) of sub-rule (1) shall be of smooth cement or other smooth impervious material.

(*ii*) The top of every work-bench in every such room shall be of smooth impervious material.

(*iii*) The said floors and work-benches shall be kept clean and in good condition.

(*iv*) The Chief Inspector may require by order in writing the said floors and work-benches to be kept wet in such manner as he may deem suitable, in order to reduce dust.

(9) The occupier shall provide and maintain in a cleanly state and in good repair for the use of persons employed on any of the operations specified in sub-rule (1) either—

(*i*) a trough with a smooth impervious surface fitted with a waste pipe without plug, and of sufficient length to allow at least two feet for every ten such persons emloyed at any one time, and having a constant supply of water from taps or jets above the trough at intervals of not more than two feet; or

(*ii*) at least one lavatory basin for every ten such persons employed at any one time, fitted with a waste pipe and plug, having a constant supply of water;

together with, in either case, a sufficient supply of nail brushes, soap or other suitable cleansing material, and clean towels.

(10) (*i*) No food, drink, *pansupari*, or tobacco shall be brought into any room in which any person is employed upon any of the operations specified in sub-rule (1).

(*ii*) No food, drink, *pansupari*, or tobacco shall be consumed in any room in which any person is employed upon any of the operations specified in sub-rule (1).

44. *Where the Inspector so requires a stretcher for the conveyance of injured persons, shall be provided.*

45. (1) *No work shall be carried on in any building, room or place which the Provincial Government, having regard to the provisions of Chapter III of the Act, has by notification declared to be unsuitable for the purpose:*

Provided that where the Provincial Government has declared as unsuitable any building, room or place which is in actual use, it may suspend the operation of the notice for such period as it considers reasonable with a view to enabling the occupier to render the building, room or place suitable or to obtain other premises.

(2) *Any declaration under sub-rule (1) may be withdrawn by the Provincial Government, if such alterations are made as, in its opinion, render the building, room or place suitable.*

46. In any factory in which more than 150 workers are ordinarily employed, the Provincial Government may require that an adequate shelter or shelters shall, before a specified date, be provided for the use of the workers during their periods of rest, and such shelters shall conform to the following standards:—

50. If in a factory engaged in the manufacture of tea the discharge into the drying room of exhaust air from a drying machine would raise the temperature of the drying room above that which would otherwise obtain therein, such exhaust air shall not be discharged into any room of the factory other than a withering room but shall be conducted directly to a withering room or to the outer air:

Provided that the Chief Inspector may, on such conditions, if any, as he thinks fit, by an order in writing grant exemption from the provisions of this rule to any factory in respect of which he is satisfied that the temperature of the drying room is, notwithstanding the discharge therein of exhaust air, ordinarily such as to make the provisions of this rule unnecessary.

Chapter VII.

Reporting of Accidents.

51. **Fatal and serious.**—When there occurs in any factory an accident to any *worker* which results in (*a*) death, or (*b*) such injury that there is no reasonable prospect that he will be able to resume his employment in the factory within 20 days, such accidents shall be called in all prescribed communications "Fatal" or "Serious" as the case may be, and the manager of the factory shall give notice of the occurrence forthwith by telephone, telegram or special messenger to—

(1) the Inspector notified for this purpose,

(2) *the Commissioner for Workmen's Compensation appointed under section 20 of the Workmen's Compensation Act, 1923, for the area within which the factory is located*, and

(3) in the case of fatal accidents only, the officer-in-charge of the Police Station within the local limits of which the factory is located.

Reports sent by special messenger shall be in Form No. 5 and those sent by telephone or telegram shall be confirmed by a written report in that form.

52. **Minor.**—When there occurs in any factory an accident to any *worker* less serious than those described in rule 51 but which prevents or is likely to prevent him from resuming his employment in the factory within 48 hours after the accident occurred, such accident shall be recorded by the manager of the factory and reported by him in Form No. 5 as soon as practicable, but in any case within 60 hours of its occurrence, to the authorities mentioned in clauses (1) and (2) of rule 51. Such accidents shall be called in prescribed communications "*Minor* accidents."

53. (1) When an accident which has been reported to the Inspector as either "Serious" or "*Minor*" afterwards proves to be "Fatal", the manager of the factory shall make the necessary correction in a supplementary report which shall be sent forthwith to the authorities mentioned in clauses (1), (2) and (3) of rule 51.

(2) When an accident which has been reported to the Inspector as "*Minor*" afterwards proves to be "Serious" or when one reported as "Serious" afterwards proves to be "*Minor*", the manager of the factory shall make the necessary correction in a supplementary report which shall be sent forthwith to the authorities mentioned in clauses (1) and (2) of rule 51.

54. Where loss of life has immediately resulted from an accident, the place where the accident occurred shall be left as it was immediately after the accident until the expiration of at least three days after the time when the notice required under rule 51 was given, or until the visit to the place by an Inspector, whichever first happens, unless compliance with this rule would tend to increase or continue the danger or would seriously interfere with the manufacturing process.

55. When there occurs in any factory any explosion, fire, collapse of buildings, or serious accident to the machinery or plant, which might have caused or might cause injury to persons, such occurrence shall be reported by the manager of the factory within five hours of its occurrence to the authorities mentioned in clauses (1) and (2) of rule 51.

Chapter VIII.

Artificial Humidification.

(The rules in this chapter apply *only* to cotton mills in which the humidity of the air is artificially increased.)

56. There shall be no artificial humidification in any room of a cotton mill whenever the wet bulb reading of the hygrometer is higher than that specified in the following schedule in relation to the dry bulb reading of the hygrometer at that time; or as regards a dry bulb reading intermediate between any two dry bulb readings indicated consecutively in the schedule, when the dry bulb reading does not exceed the wet bulb reading to the extent indicated in relation to the lower of those two dry bulb readings:—

90·0	84·5		

Provided however that this rule shall not apply when the difference between the wet bulb temperature as indicated by the hygrometer in the room concerned, and the wet bulb temperature taken with a hygrometer outside in the shade is less than 3·5 degrees.

57. No steam shall be used for the purpose of producing artificial humidification in any room of a cotton mill the dry bulb temperature of which exceeds 85 degrees.

58. The pipes used for the introduction of steam into the atmosphere of any room of a cotton mill shall, so far as they are within the room, be as small, both in diameter and length, as is reasonably practicable and shall be effectively covered with non-conducting material to the satisfaction of the Inspector so as to minimise the amount of heat thrown off by them into the room.

59. (1) In all rooms of a cotton mill wherein artificial humidification is adopted, hydrometers shall be provided and maintained in such positions as are approved by the Inspector. The number of hygrometers shall be regulated according to the following scale:—

(*a*) **Weaving Department.**—One hygrometer for rooms with less than 500 looms, and one additional hygrometer for every 500 or part of 500 looms in excess of 500.

(*b*) **Other Departments.**—One hygrometer for each room of less than 300,000 cubic feet capacity, and one extra hygrometer for each 200,000 cubic feet, or part thereof, in excess of this.

(2) One hygrometer shall be provided and maintained outside each cotton spinning and weaving factory wherein artificial humidification is adopted, in a position approved by the Inspector, for taking hygrometer shade readings.

60. When satisfied that the limits of humidity allowed by the schedule to rule 56 are never exceeded, the Inspector may, by order in writing, grant exemption from the provisions of rule 59 in respect of any room other than a room in the Weaving Department.

61. A legible copy of the schedule to rule 56 shall be affixed near each hygrometer.

62. At each hygrometer maintained in accordance with rule 59 correct wet and dry bulb temperatures shall be recorded thrice daily during each working day by competent persons nominated by the manager and approved by the Inspector. The temperatures shall be taken between 7 a.m. and 9 a.m., between 11 a.m. and 2 p.m. (but not in the rest interval), and between 4 p.m. and 5-30 p.m. In exceptional circumstances, such additional readings and between such hours as the Inspector may specify, shall be taken. The temperatures shall be entered in a Humidity Register in Form No. 6. At the end of each month the persons who have taken the readings shall sign the register and certify the correctness of the entries. The register shall always be available for inspection by the Inspector.

63. (1) Each hygrometer shall comprise two mercurial thermometers, one wet bulb and one dry bulb, of similar construction, and equal in dimensions, scale and divisions of scale. They shall be mounted on a frame with a suitable reservoir containing water.

(2) The wet bulb shall be closely covered with a single layer of muslin, kept wet by means of wick attached to it and dipping into the water in the reservoir. The muslin covering and the wick shall be suitable for the purpose, clean and free from size or grease.

(3) No part of the wet bulb shall be within 3 inches of the dry bulb or less than 1 inch from the surface of the water in the reservoir and the water reservoir shall be below it, on the side of it away from the dry bulb.

(4) The bulb shall be spherical and of suitable dimensions and shall be freely exposed on all sides to the air.

(5) The bores of stems shall be such that the position of the top of the mercury column shall be readily distinguishable from a distance of 2 feet.

(6) Each thermometer shall be graduated so that accurate readings may be taken between 50 and 120 degrees.

(7) Every degree from 50 degrees up to 120 degrees shall be clearly marked by horizontal lines on the stem; each fifth and tenth degree shall be marked by longer marks than the intermediate degrees and the temperature marked opposite each tenth degree, *i.e.*, 50, 60, 70, 80, 90, 100, 110 and 120.

(8) The markings as above shall be accurate, that is to say at no temperature between 50 and 120 degrees shall the indicated reading be in error by more than two-tenths of a degree.

(9) A distinctive number shall be indelibly marked upon each thermometer.

(10) The accuracy of each thermometer shall be certified by the National Physical Laboratory, London, the Mathematical Instruments Office, Calcutta, or such other authority as may be appointed by the Provincial Government, and such certificate shall be attached to the Humidity Register.

64. Each thermometer shall be maintained at all times during the period of employment in efficient working order, so as to give accurate indications and in particular:—

(*a*) the wick and the muslin covering of the wet bulb shall be renewed once a week.

(*b*) the reservoir shall be filled with water which shall be completely renewed once a day. The Chief Inspector may prescribe the use of distilled water or pure rainwater in any particular mill or mills in certain localities; and

(*c*) no water shall be applied directly to the wick or covering during the period of employment.

65. (2) Each hygrometer shall be so mounted that the accuracy of the dry bulb temperature shall not be affected by the proximity of water in the reservoir.

(*a*) he does not thereby change his employer,

(*b*) unless working under the provisions of the rule providing for the exemption of workers engaged on urgent repairs made under clause (*a*) of sub-section (2) of section 43, he does not work for longer periods or for more hours than he might legally have worked in the factory in which he is employed:

Form No. 4.

Factory Inspection Department, Bengal.

FIRST  AID

(Rule 43 of the Bengal Factories Rules, 1939.)

TREATMENT OF MINOR INJURIES.

A SCRATCH OR SLIGHT WOUND.

Treat every scratch or slight wound *immediately*.

Apply the Iodine Solution* over the broken surface *once* and allow to dry.

Do not attempt to wash the wound at all.

Apply a "*Sterilised Dressing*"† A bandage can be applied over this dressing if necessary. Do not touch the part of the sterilised dressing which is put next to the wound.

Blood poisoning or septic infection of a wound is caused by introducing germs into it. A sterilised dressing should, therefore, always be used as it is free from germs.

Iodine sterilises the wound and makes any dirt harmless.

Hands are never free from germs, and should never touch the wound or the part of the dressing to be applied to the wound.

A BURN OR SCALD.

Cover the injured part with a dry "Sterilised Burn Dressing."‡

Note—Ointment or oil, such as carron oil, should not be used for a First Aid Dressing. Carron oil is not sterile. Its use may also interfere with any subsequent treatment by a doctor or in the ambulance room.

Do not prick a blister, except under medical advice; it is no part of the First Aid Treatment.

---

*A 2 per cent. solution of Iodine in Rectified Spirit B.P.

†"Sterilised Dressing." A dressing put up in a separate packet and rendered free from germs by a special process.

‡"Sterilised Burn Dressing." A similar dressing as above prepared specially for burns.

AN ACID BURN.

Flood the burn with cold water.

Sprinkle it (after flooding) with powdered Bicarbonate of Soda.

Apply a "Sterilised Dressing" of suitable size.

Iodine should *never* be used for *Burns* or *Dermatitis*.

EYE INJURIES.

Prevention is better than cure.

Therefore, if your work entails danger to the eyes, *wear goggles*. Goggles have saved hundreds of eyes; *thousands* have been lost for want of them.

A Foreign Body in the Eye.

Apply two or three eye drops* to the affected eye-ball.

Cover with an eye-shade

Go to a doctor *at once*.
Do not try to remove any particle which cannot be brushed away.

Note.—The treatment recommended should be carried out *immediately*. The longer the delay the greater the risk of Blood Poisoning.

It is First Aid treatment and is not intended to replace any subsequent treatment which may be necessary by a doctor or in the ambulance room.

---

*Eye drops—

†Cocaine	.. ..	0·5 per cent.
Hyd. Perchlor. in castor oil	..	1 in 3,000.

Instructions to chemist for making eye drops :—Weigh 95 grammes of castor oil into a flask capable of holding twice the quantity. Add 0·5 gramme of powdered cocaine. Warm on a water bath till dissolved. While the solution is still warm (but not hot) add one cubic centimetre of a solution containing 3·3 grammes of mercuric chloride in 100 cubic centimetres of absolute alcohol. Mix the solutions by rotating the flask.

About half an ounce, or 15 c. c., of this solution should be supplied in a bottle from the cork of which a camel-hair brush is pendent in the fluid.

† First Aid boxes as obtained from the suppliers will not contain the eye drops, as a cocaine preparation can only be dispensed under prescription from a registered medical practitioner. It will be necessary, therefore, for the factory manager to obtain a prescription from the Civil Surgeon or other registered medical practitioner, and to purchase the eye drops separately.

*The average daily number should be calculated by dividing the aggregate number of attendances on working days by the number of working days in the year. In reckoning attendances, attendances by temporary as well as permanent employees should be counted, and all employees should be included, whether they are employed directly or under contractors. Attendances on separate shifts (*e.g.*, night and day shifts) should be counted separately. Days on which the factory was closed, for whatever cause, and days on which the manufacturing processes were not carried on should not be treated as working days.

†Enter "one hour," "two half-hours," "one half-hour," or "none," as the case may be. If none of these categories applied to all the adult employees, enter the category applicable to the majority of adult employees. Where the majority received an interval exceeding one hour enter "one hour."

KHALILUR RAHMAN,

for Registrar, Board of Central Madrasah Examinations, Bengal.

Krishnagar College.

Krishnagar, the 29th May 1939.

The College re-opens on the 3rd July 1939 after the summer vacation.

1. The College teaches up to the B.A. and B.Sc. standards of the Calcutta University. There is provision for Honours teaching in Mathematics for the B.Sc. students and in English, Sanskrit and Mathematics for the B.A. students. The following combination of subjects is permitted:—

(*i*) I.A.—English, Bengali and any three of the following subjects:—History, Logic, Elements of Civics and Economics, Mathematics, Sanskrit or Persian.

N.B.—Candidates may also take up, if they so desire, one additional subject out of the last named group of five subjects, provided they have not already taken the subject. The additional subject so taken shall be considered as the optional subject under rule 8A of the University Regulations for the I.A. Examination.

(*ii*) I.Sc.—English, Bengali, Mathematics, Physics and Chemistry.

(*iii*) B.A.—English, Bengali and any two of the following subjects:—Mathematics, History, Economics, Mental and Moral Philosophy, Sanskrit or Persian.

(*iv*) B.Sc.—Physics, Chemistry and Mathematics.

2. Students who seek admission to the College must apply in the prescribed Admission Form which can be had from the College office on personal application or by sending a stamped cover. A limited number of women students is also admitted to the College.

3. Students who have passed the University Examinations creditably can be admitted to the College. Students who come with transfer certificates from other colleges can only be admitted if their attendance and progress in studies at the College where they last studied, are considered satisfactory. Plucked candidates are required to produce the "Admit Card" and the "Cross List".

4. Students who do not reside with parents or legal guardians must live in one of the College hostels. Permission to live with local guardians can be granted only in exceptional cases.

5. Arrangements have been made to divide the students into groups and place them under the effective and intimate guardianship of their teachers. Any change of address must immediately be notified to the College office.

6. Students must obey the rules and discipline of the College including those of the College Union. Absence from College Examinations without leave is a breach of College discipline. No student can be promoted to a higher class or sent up for a University Examination unless he has appeared at College Examinations and has been regular in attendance.

7. Attendance at games or organised physical exercises under the guidance of the Physical Instructor is compulsory.

8. *Hostels.*—There are two hostels attached to the College—one for the Hindu students and another for the Muslim students. The messing charge in the Hindu Hostel is Rs. 11 per month (including the establishment and light charges). In case of a deficit, the amount spent in excess is shared equally by the boarders. In the Muhammadan Hostel the messing charge is about Rs. 8 per month. In addition the charges for electric lights are shared equally by the boarders. The monthly seat rent is Re. 2 in both the hostels. Two of the students belonging to the educationally backward classes (*i.e.*, scheduled castes) can be given rent-free seats in the Hindu Hostel out of a grant received from the University of Calcutta. Students seeking admission to the hostels should apply to the Superintendents personally.

9. Students pay on admission to the hostel Rs. 3 as admission fee and Rs. 6 as caution money. The caution money is refunded only when the boarder finally leaves the hostel, provided all dues have been paid. But this money shall be forfeited to the hostel fund in the case of expulsion from the hostel. The health of the boarders has all along been satisfactory. A few stipends to poor but meritorious students residing in the hostels are awarded out of the income of certain trust funds.

10. *Fees.*—(*a*) Students pay on admission to the College an admission fee equal to the tuition fee of the class for one month.

(*b*) They also pay an annual consolidated subscription of Rs. 5 for the College Union, viz., Rs. 2 for the Athletic Club, Re. 1 for the College Magazine, Re. 1 for the Common Room and Re. 1 for other activities of the Union. This subscription is payable at the time of admission and subsequently in the month of July every year.

(*c*) They further pay an annual fee of Re. 1 as printing charges.

(*d*) They also contribute a sum of Re. 1 per year towards the Students' Aid Fund from which poor and needy students get occasional help in meeting their tuition fees. This amount is also payable in the month of July every year.

(*e*) Students whose names have not already been registered in the University, pay a registration fee of Rs. 2 (and money order commission of annas 2) as laid down in the University Regulations.

11. All students are also required to make a library deposit of Rs. 5 each and the I.Sc. students a laboratory deposit of Rs. 10 each, and the B.Sc. students a laboratory deposit of Rs. 15 each. The caution money is forfeited by Government if not withdrawn by the students within five years of the date of deposit.

12. (*a*) Monthly tuition fees are as follows:—for students of the I.A. Classes Rs. 6; for students of the B.A. and I.Sc. Classes Rs. 7; and for students of the B.Sc. Classes Rs. 8.

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1939.

[NOTE.—**On an average of the five years ending 1936-37, the area under jute to which this forecast relates, represents some 83·9 per cent. in Bengal and 1·0 per cent. in Bengal States of the total area under jute in India.**]

The Preliminary forecast deals only with the estimates of area sown and the condition of the crop at the time of publication of the forecast. The estimates of the area are based on information received through the Collectors from the Revenue staff; also from the Presidents, Union Boards, and Agricultural Officers.

Area sown in 1939.—In Bengal returns for the present season show a total area of 2,513,000 acres, a decrease of 8,500 acres or about 0·34 per cent. as compared with the revised figures for 1938.

Character of the season.—With a few scattered showers in February and March preparation of the low and mid-land fields began on an extensive scale and low-land sowing commenced in the earlier districts. Satisfactory condition prevailed in *char* and *bil* lands and the earliest sowings germinated well. A spell of dry weather set in but sowings were carried on in full swing in expectation of rain. In April light rain fell in most districts on the eastern area and proved beneficial. Protracted drought hampered sowing in the district of Mymensingh and in an extensive area in North Bengal as also in the jute tracts of West Bengal. It had an adverse effect on germination and the plants in some fields withered and were ploughed in with a view to resowing. In May practically all districts had nearly general rainfall which brought about a marked change in the outlook. High-land sowing was resumed even though the normal sowing time was over in some districts. Since then the condition of the crop has greatly improved with alternate rain and sunshine. In West Bengal sowing in the white jute tracts was greatly delayed and the crop suffered for want of rainfall. *Daisee* sowings commenced under favourable conditions in May but the operation was hampered at places owing to insufficient rainfall and a considerable area left unsown.

On the whole the East Bengal districts have experienced satisfactory growing conditions while in North and West Bengal sowing was either late or the germination and growth were affected by prolonged drought followed in some cases by excessive rains.

Present state of the crop.—The present condition of the crop is promising.

Stock.—There is little stock in the hands of cultivators.

M. CARBERY,
Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR, 1939.

[NOTE. On an average of the five years ending 1936-37, the area under jute in Bihar to which this forecast relates has represented some 8·6 per cent. of the total area under jute in India.]

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—I estimate the area sown during the current and four preceding years, in round numbers, as follows:—

Year.	Acres.
1935	142,000
1936	463,600*
1937	445,000
1938	315,500
1939	265,900

*Revised.

3. **Weather conditions.**—In March light rain fell in all jute-growing districts, the fall being below the normal everywhere except in the Santal Parganas where it was slightly above the normal. In April rainfall was light in Bhagalpur and Santal Parganas and very scanty in Purnea and Muzaffarpur and there was no rain in the remaining districts. The rainfall in May was light and below the normal except in Purnea where it was well above the normal. Rainfall in June was general throughout the jute districts. The weather conditions in the most important jute-growing areas of Purnea were not favourable at the time of sowing due to lack of moisture in the soil on account of drought.

4. **District returns.**—Last year's area under jute has been finally estimated at 315,500 acres. The total area under jute this year is estimated by the District Officers in round numbers at 265,900 acres. The decrease in area in Purnea is reported to be due to lack of moisture in the soil at the time of sowing and also to insufficient seeds as the result of destruction of the last year's crops by floods.

5. **Condition and prospects.**—The present condition of the crop is good.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1938 is reported to be almost nil.

The statement below compares the estimated area under jute in this province this year with the preliminary and final figures of last year:—

DEPARTMENT OF DEVELOPMENT, ORISSA.

PRELIMINARY FORECAST OF THE JUTE CROP OF ORISSA, 1939.

[NOTE.—On an average of the five years ending 1936-37 the area under jute in Orissa to which this forecast relates, represents about 0·7 per cent. of the total area under jute in India.]

The present forecast deals only with the estimates of area sown and the condition of the crop up to the first week of June. It makes no reference to the probable outturn either in percentage figures or in bales.

Acreage.—The total area sown is estimated in round figures at 20,000 acres against 24,900 acres found by actual survey of the jute fields last year. Sowing is in progress in Cuttack and Balasore districts and had not commenced in the Puri district up to the first week of June for want of rainfall.

Character of the season.—The rainfall was deficient in April and May. The sowing has, therefore, not proceeded satisfactorily.

Condition and prospects.—The present condition of the crop is on the whole fair.

General.—The stocks in the hands of the cultivators are reported to be very small.

The statement below compares the estimated area under jute this year with the preliminary and final figures of the last year :—

PRELIMINARY FORECAST OF THE JUTE CROP OF ASSAM, 1939.

[NOTE.—On the average of the five years ending 1936-37, the area under jute in Assam represents some 5·7 per cent. of the total area under jute in India.]

1. **Season.**—The weather was unfavourable for the cultivation and growth of the crop due to prolonged drought at the time of sowing. Though the condition subsequently improved considerably the outturn is not expected to be better than last year. Damage to the crop by insects is reported from the district of Goalpara only.

2. **Area sown.**—The total area under jute as estimated by the Deputy Commissioners is 257,100 acres against 302,600 (revised) of last year. There is decrease in area in all the districts except a slight increase in Sibsagar and Lakhimpur. The net decrease over last year's actual figure is 45,500 acres.

3. **Stock.**—According to the reports of the Deputy Commissioners the stock of jute from the crop of last year is practically nil.

Abstract of the Bengal Maternity Benefit Act, 1939, and rules framed thereunder.

[Rule 11 of the Bengal Maternity Benefit Rules, 1939.]

1. Under the Maternity Benefit Act, 1939, every woman employed in a factory for a period not less than nine months immediately preceding the date of her delivery is entitled to receive from her employer maternity benefit at the rate of her average daily wages or eight annas a day, whichever is greater, for a period of eight weeks at every childbirth, *i.e.*, four weeks immediately preceding and four weeks immediately following the child birth.

2. Every pregnant woman should give notice to the manager of her expectation of confinement within one month. If such notice is not given before the birth of a child, it must be given within seven days of its birth. The notice may be given either orally in person, or in writing in form B appended to the Bengal Maternity Benefit Rules, 1939, if before birth, and in form C appended to the said rules if after birth.

3. Maternity benefit is payable to the woman entitled to receive it. If she dies, but her child survives, the benefit due is payable to the person who takes care of the child. If both the woman and the child die, the benefit due is payable to the woman's nominee or her legal representative.

4. A woman must not work in a factory during the period for which she receives maternity benefit. Failure to adhere to this will render both the woman and the manager employing her liable to prosecution.

5. An employer may not dismiss a woman during the period for which she is entitled to be absent from work, and if dismissed without sufficient cause within six months, before delivery, she shall still be entitled to maternity benefit.

6. All payments against claims for maternity benefit shall be made in cash and receipts therefor shall be taken.

PART IVA

Bills introduced in the Bengal Legislative Assembly; Reports of Select Committees presented or to be presented to that Assembly; and Bills published before introduction in that Assembly.

BENGAL LEGISLATIVE ASSEMBLY DEPARTMENT.

NOTIFICATION.

No. 2655L.A.—14th July 1939.—The following report of the Select Committee on the Bengal Agricultural Debtors (Amendment) Bill, 1939, with the Bill embodying amendments recommended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Agricultural Debtors (Amendment) Bill, 1939.

We, the members of the Select Committee to which the Bengal Agricultural Debtors (Amendment) Bill, 1939, was referred by a motion carried in the Bengal Legislative Assembly on the 31st March, 1939, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed. Matter recommended by us to be omitted has been printed in italics and enclosed in square brackets and new matter recommended to be inserted has been underlined.

2. The Committee met for the first time on the 18th April, 1939, and from time to time thereafter till the 10th July, 1939, on which date they concluded their deliberations on the Bill.

3. The Bill was published before introduction in the *Calcutta Gazette* of the 12th January, 1939, and has not, in our opinion, been altered by our recommendations to the extent of requiring republication.

4. The reasons for the changes recommended by us are briefly as follows:—

Clause 2.

New sub-clause (a_1).—The amendment is intended to restrict the definition of "debt" to liabilities incurred prior to the 1st January, 1940. We thought that the restriction would improve facilities for rural credit which appears to be particularly called for under the present economic depression.

Sub-clause (1)(c).—We consider that taxes due to a union committee should be on the same footing as those due to a municipality or union board and have accordingly excluded such taxes from the category of debt within the meaning of this Act.

Sub-clause (2).—We considered it unnecessary to restrict the meaning of "debtor" by insertion of the word "occupation." The powers given to the Provincial Government by rules framed under section 55(*2*) of the Act, to fix the maximum amount of debt that can be dealt with under the Act are quite effective in serving the purpose.

New clause 5A.

Sub-clause (1)(a).—We have considered it necessary to insert this sub-clause in view of the restriction in the definition of debt as recommended by us in clause 2(a_1). This will enable the Board to have a comprehensive measure of all liabilities whether under settlement or not.

Sub-clauses (1)(b) and (2).—These have been inserted in order to facilitate the issue of notices required under new section 13A as inserted by the proposed new clause 6A.

Sub-clause (3).—We considered it necessary to define the expression "original principal" occurring in sub-sections (*1*)(*c*) and (*2*) of section 11 of the Act. This seemed to be desirable in view of the deletion of section 18(*3*) of the Act by clause 8(*2*).

New clause 6A.

In the case of an award relating to restoration of the debtor's properties it was considered desirable to give all persons in actual possession an opportunity of representing their case before the Board. To serve this purpose we have inserted this new clause providing for issue of notice on any person who may be stated to be in possession of the property.

Clause 8.

The amendment in this clause specifying the different types of possession which the creditor may step into is intended to clarify the intention and remove the possibility of any doubts or disputes regarding the scope of the proposed section 18(5) which should, in our opinion, cover all cases of such possession including that under mortgages in any form or stage.

Clause 10.

Proposed section 19A—Sub-section (1).—We considered it undesirable to prescribe any limitation for the debtor in applying for restoration of property under this section and have therefore deleted the words providing such limitation.

Sub-section (2).—We considered it proper that any person who may be in possession under the creditor should also be before the Board disposing of an application for restoration of the property, and this sub-section has been amended accordingly. Sub-sections (3) and (4) have been omitted as unnecessary in view of new section 13A inserted by us in new clause 6A.

Sub-section (5).—The alteration is consequential to the deletion of sub-sections (3) and (4) above.

In this clause we have substituted the words "delivery," "deliver," and "delivered" respectively for the words "restoration," "restore," and "restored" occurring in the marginal heading, and in the sub-clauses (2) and (5) as we considered it desirable to draw a clear distinction between the order by the Board for restoration of possession as a part of the award and the action of the Certificate Officer in putting the debtor to actual possession in pursuance of such an order.

Clause 11.

The amendment in this clause is of a drafting nature making the intention unambiguous.

Clause 13.

This is an improvement in drafting only.

Clause 15.

While discussing the explanation a question of giving retrospective effect to this provision was raised and considered. We should like the Government to look into the matter on some future date upon due consideration of all necessary statistical figures that may be available.

Explanation.- We have supplied an apparent omission explaining the position of the "debt" while the confirmation of a sale is kept pending by an order of stay of proceedings under this section.

New Clause 15A.

We have excluded liabilities incurred after the 1st of January, 1940, from the category of "debt" within the meaning of this Act. We have however thought it desirable to put the same restriction on the recovery of such liabilities as exists, at present, in respect of liabilities incurred by the debtor after an application under section 8 of the Act.

Clause 16.

Sub-clause (1).—It is in our opinion not necessary for an Appellate Officer to have any definite judicial experience except for hearing appeals from orders under sections 21, 22 and 29 We have given effect to this view by amending this sub-clause.

Sub-clause (2).—The omission in this clause is consequential on the alteration in the words of the proposed new section 19A. We are clearly of opinion that there need be no appeal against the action of the Certificate Officer in effecting delivery of possession under an award of the Board, which is in itself appealable.

Sub-clause (3).—The amendment in this sub-clause is consequential to the insertion of new clause 16A.

New clause 16A.

In this clause we have provided for revision of the order of the Appellate Officer in order that relief may be obtained at a minimum expense against a substantial failure of justice caused by any illegality or irregularity in the order of the Appellate Officer or for any other sufficient cause. Past experience has shown that such a provision was essentially necessary in the interest of justice.

Clause 19.

All the amendments in this clause are consequential to our previous recommendations.

Clause 20.

We have amended this clause to ensure that only in the contingency of the prescribed fee remaining unpaid after the date fixed by the Board it will be recoverable as a "public demand payable to the Collector" as under the Public Demands Recovery Act.

Minute of Dissent by Mr. J. W. R. Steven, M.L.A.

I dissent from the report of the select committee in respect of the deletion of clause 2(2). I consider that the definition of "debtor" should be amended so as to confine the operations of the Act to those for whose relief it is intended.

Minute of dissent by Maulvi Md. Israil, M.L.A., and Haji Tofel Ahmed Chowdhury, M.L.A.

Clause 15 with explanation thereof should be made retrospective from the date the Board was first established under the Act inasmuch as many execution proceedings after sale but before confirmation were stayed by the Debt Settlement Boards on the strength of the instruction given to them by the departmental officers and the debtors allowed other remedies open to them to be barred, but the case reported in 42 C.W.N. came to them as a bombshell and subsequently all the aforesaid stay orders were executed by the Courts in view of the ruling referred to above and the sales confirmed to the utter detriment of the debtors. So these unfortunate victims should be given a protection under the law to extricate them from the jaws of their unrelenting creditors.

STATEMENT OF OBJECTS AND REASONS.

1. In Bengal, generally speaking, marketing of the products of agriculture is liable and subject to the following, among other, disadvantages, defects, malpractices and irregularities:—

(*i*) "Tricks of the trade", such as adulteration and mixing of produce, are practised;

(*ii*) Market charges and allowances levied by owners and dealers are multiform and often excessive;

(*iii*) Scales, weights and measures are dissimilar, and thereby afford scope and opportunity for cheating and sharp practice;

(*iv*) Existing markets are deficient in communication, accommodation, shelter and sanitation;

(*v*) Reliable information as to prices, etc., is sometimes not easy to obtain;

(*vi*) Unjustified and illegal discounts and deductions are current;

(*vii*) Hangers-on of the market, casual irresponsible interlopers and rakers-off, servants of the owners of the market, functionaries, dealers, beggars, touts and market employees levy toll of various kinds, defined and undefined, to the victimization of the cultivator;

(*viii*) The system of commission selling is defective, as for example, allowing commission agents to operate both for the buyer and the seller;

(*ix*) Brokers are apt to favour the buyer at the expense of the grower;

(*x*) Malpractices are common, e.g., wrong weighment, undue deductions in weight, stoppage of delivery for complaint or bargaining when half a cart is unloaded;

(*xi*) Produce is subject to no standard and the dealer has to chance the quality of the produce he buys and the possibility of adulteration. Prices, therefore, rule low and the result is that the producer, who is the cultivator, often does not receive a reasonable value, while the consumer pays a high price for an inferior article.

2. The Royal Commission on Agriculture (Chapter XI, page 387) estimated the margins of middlemen in jute as follows:—

"The margins of the various middlemen are estimated as from two to six annas per maund of jute for the faria according to the season, four annas to one rupee for the bepari and four annas for the aratdar. The margin of the baling firms from which they have to meet the cost of handling and storing as well as that of freight to Calcutta and Insurance is placed at Re. 1-6-0. The difference between the price received by the cultivator and the price paid by the jute mill or the exporter is thus estimated at from Rs. 2 to Rs. 2-8-0 per maund, which represents twenty per cent. of the total price".

3. The result is that commodity values are lost in service costs. Agricultural produce costs more to distribute than to produce. The middlemen absorb too much of the profits, so that the farmer, being preoccupied with the middlemen, has little thought for the consumer or for the quality of his goods.

4. The Royal Commission on Agriculture (Report, page 395) examined the question whether regulated markets should be established under *ad hoc* legislation or under bye-laws framed under the Municipalities Act or the District Boards Act, and came to the conclusion that special legislation was advisable giving weighty reasons in support of their conclusion. In brief, bye-laws of local bodies have not up to now been adequately enforced.

5. This Bill therefore makes provision in Bengal (outside Calcutta) for regulated markets for agricultural produce.

6. The main objects of the Bill are—

(*a*) to register all markets, fairs and hats;

(*b*) to regulate the scale of market charges with a view to uniformity and reduction;

(*c*) to control trade practices;

(*d*) to ensure uniformity of scales, weights and measures;

(*e*) to improve the conditions of markets by providing better shelter, water and sanitary arrangements for men, beasts and produce;

(*f*) to keep the cultivator well posted in regard to prices;

(*g*) generally to ensure that the cultivator-producer receives a fair deal, a fair price and the whole of the market price *minus* reasonable market charges;

(*h*) to protect the purchaser and the public (the cultivator is not himself guiltless of malpractices);

(*i*) to encourage the cultivator to improve the quality of his produce and thus remove the existing suspicion attaching to Indian raw material in foreign markets; and

(*j*) to eliminate malpractices, such as wrong weighments, undue deductions in weight, price reduction by going back on the original terms of the bargain, etc.

7. The means by which it is proposed to achieve the above objects is the setting up of Market Committees (mainly elected and representing all interests) for particular markets to regulate and control the marketing of agricultural produce by a system of licenses of operators in the market.

8. The provisions of the Bill should enable and secure, in course of time, the establishment of regulated markets for agricultural produce throughout the province.
